[DISPATCHES TO THE OREGONIAN]

DATES TO DECEMBER 3.

From the Rio Grande.

WASHINGTON, Nov 28 —Last night a dispatch was received by Gen Grant from Sheridan stating that the latter had been informed that Sedgwick contemplated such a movement and that an order had immediately been forwarded by telegraph to arrest it as an unauthorized and unwarranted proceeding Gen Sheridan stated that if the movement was made before the telegraphic order reached the officer in command he should immediately relieve the officer from duty It is believed Sedgwick may be induced to take the step by importunities of citizens of Matamoras who had committed themselves by affiliating with Imperialists and wanted protection The project is entirely disapproved by the civil and military authorities here

Letters from the City of Mexico have been received here dated Nov 16th, stating the fact that Gen Bazaine had given arms and ammunition to the Mexican Liberals and promised them that they should not be interrupted by the French forces provided they pronounced for Gen Ortega as President of Mexico.

Another Rebel Senator

RALEIGH N C, Nov 28 —McManly was elected United States Senator to-day He was Judge of the Supreme Court under the Confederate Government

Decision in Admiralty

NEW YORK, Nov 28 —Judge Betts delivered an important decision yesterday in the case of the Chilean privateer *Meteor* which required a very close analysis of the points of the neutrality laws The argument establishes a distinction between merely sending contraband merchandise to the markets of a belligerent, subject to the chances of capture, and fitting out vessels to come directly from their own ports against a friendly nation The *Meteor* was condemned on this argument

Wreck and Loss of Life.

DUFFIN'S CREEK C W, Nov 28 —The schooner *Snow bird* capsized and drifted ashore near Tabicoke creek It is supposed that the crew is all lost From appearances it is supposed that she sprung a leak and became unmanageable

From Fortress Monroe.

FORTRESS MONROE, Nov 28 —Clement C Clay, accompanied by his wife, arrived here and shortly after called on Jeff Davis The meeting was cordial

The steamer *Santiago de Cuba* from New York is receiving the passengers of the steamer *San Francisco* which put in here in a disabled condition The *Santiago de Cuba* will proceed to Greytown and the *San Francisco* will go back to New York for repairs

FORTRESS MONROE, Nov 29 —H. Rives Pollard and J M Hanna formerly of the Richmond *Examiner*, to-day applied for permission to see Jeff Davis, but were denied.

Cross Rumors.

CHICAGO Nov 29 —Reports are contradictory in regard to the occupation of Matamoras by our troops A New York special reports that the President received a telegram from General Sheridan confirming the occupation, while the *Post's* special is equally positive that the Government received no such information A dispatch from General Sherman, received to-day mentions that such a rumor is current in the North-east but he discredits it Exaggerated reports on this subject are set afloat

New Governor for India.

HALIFAX, Nov 29 —Governor Ord of Bermuda, has been appointed Governor of East India with headquarters at Singapore He leaves here for England by the steamer *Africa*

Fenians on the Border.

TORONTO, Nov 29 —Montreal papers say that a mass of Fenians are concentrating on the Vermont border opposite Stanton county, and troops have been sent there

Washington News

WASHINGTON, Nov 29 —Hannibal Hamlin declines to deliver an address of welcome to Congress owing to previous engagements, and the reception will probably be postponed to Monday, Dec 3d, because but few members have arrived

Orders have been sent to Sheridan that if any crossing into Mexico has been made, he must disavow and court martial the officer engaged in it No reliable advices from Matamoras have been received

WASHINGTON, Nov 29 —On Thursday, the 22d, Secretary Seward communicated to a special cabinet meeting a draft of his dispatch to Minister Bigelow, commenting upon Napoleon's breach of the agreement to withdraw the French from Mexico during this month After it was read, the cabinet unanimously voted that it be made stronger in insisting that the French troops shall be withdrawn according to the programme agreed on in June last The cable news to-day shows that the dispatch had its effect The French Minister read a dispatch to-day by cable from Moustier, French Minister of State announcing that fourteen vessels would sail immediately from Brest for Vera Cruz, where the French troops in Mexico were required to rendezvous for their embarkation Ten additional vessels will leave by the middle of December By the 15th of January all the French troops will probably be out of Mexico This solves authoritatively the finality of the French Mexican muddle

BUFFALO, Nov 30 —The following important items of Nov 28th, have been delayed by the bad condition of the wires.

In regard to the removal of troops from Mexico it is a military necessity to remove all at once There is doubt that this will be done Much speculation has been indulged in as to the design of Lieut Gen Sherman in accompanying Minister Campbell to Mexico The truth is, however he was designated as adviser to that gentleman though as to diplomatic affairs in Mexico, and the military movements on the frontier, should an emergency arise, would require a new disposition of the troops but since the reception of the Emperor's intentions with regard to the removal of his army, it is thought such necessity will not occur

The latest news received by the Government respecting Maximilian is that he was at Orizaba, the French officials refusing to permit him to leave unless he formally resigned his crown

News from Canada.

NEW YORK, Nov 30 —It is believed in Montreal that the British Government has refused to pay the *Alabama* claims, and that Canada will have to look out for trouble with the United States It is further believed that France has expressed a willingness to assist in defense of the Canadian Provinces provided the British navy will co-operate with her in the Gulf of Mexico

Major-General Husted is expected to relieve Gen. Lindsay, now in command of the military forces in Canada Gov Monk is to be recalled immediately The decision regarding the application for new trials of the condemned Fenians has not yet been delivered, it being intimated that the judges disagreed

NEW YORK, Nov 30 —The *Herald's* Montreal special dispatch says The Canadian Government will discharge the Fenian prisoners if the United States Government will guarantee that Roberts shall not make another raid on the Provinces The prisoners are to be removed to Sweetsburg, to-day The sixty crown witnesses have been ordered there.

The news from Ireland has created the greatest excitement and the general opinion is that Canada would now have to look out for trouble with the United States if the British Government does not pay claims for the *Alabama's* damages

Trade Report.

CHICAGO Nov 30 —The exports of cotton from New York during the fortnight ending November 23, reached seventeen million dollars The foreign demand for breadstuffs and provisions has revived again, and promises to relieve us of a respectable amount of surplus produce at remunerative rates These purchases constitute one of the most encouraging commercial signs of the times The total exports of produce and merchandise from New York during the week ending Nov 27th were of a currency value nearly three and a half million dollars Vague rumors have prevailed on Wall street that we are on the eve of a war with France, but the New York *Times* of the 28th says the mendacious inventions of speculators do no more to disturb buyers and sellers of United States securities than if they had issued a declaration of war against another planet

President of the Senate

NEW YORK, Nov 30 —The *Tribune's* Washington special correspondent says the indications are that the contest for President of the United States Senate will be between Wade, of Ohio Anthony, of Rhode Island and Pomeroy of Kansas Senator Sherman is also named by the more conservative class but it is highly probable he will not permit his name to be used

Jeff Davis.

The Mississippi commissioners sent to Washington in behalf of Jeff Davis have been informed by the President that they can effect nothing more than is being done for Davis

The *World's* Washington special dispatch from the French Minister of State, Moustier, to Count Montholon, stating that the principal reason given by Napoleon for the delay in withdrawing the French troops is that the latter had been so severely pressed by the Mexican forces that it was dangerous to attempt an evacuation under the circumstances

The Message.

A cable telogram states that a synopsis of the President's message has been received in England, and that it has no effect whatever, on the market for American securities It has about as little disturbing effect on the public mind of America as it produces on our securities abroad. The leading portion of the message—that part which treats of the political situation at home—contains nothing new It is somewhat milder in tone than could have been expected, considering the furious utterances of its author on the same subject three months ago Still, he abates little from his former position, and undertakes to argue the matter with Congress after the people have passed upon it The argument he offers, as we said on a former occasion, in the main differs nothing from what has been heard from every stump and at every cross roads in the country He has his theory, and he adheres to it with a pertinacity that is quite the opposite of true wisdom He undertakes to make our polity square with this theory, and is utterly blind to the peculiar requirements of the case which is engaging the attention of the country. Matters of so grave an import cannot be settled on any mere theory, but must always be decided according to the circumstances and requirements of the situation. As the arguments he brings forward have heretofore been well considered by the people, they will now receive very little attention. They are too stale to excite particular remark, and their presentation in the message was simply a work of supererogation.

The President very frequently repeats the current talk of the last year about the admission of "loyal" members from the South into Congress. What he means by "loyal" members may easily be derived from his past actions, and indeed from the message itself, inasmuch as in that document he repeatedly exhorts everybody to forget the past, and let by-gones be by-gones. He believes all are loyal who now submit to the authority of the Government—the Northern "traitors" of course excepted. All know that to measure Southern loyalty by his standard, would be to admit the rebel Vice President Stephens, the rebel Senators Graham and Johnson, and a host of others who have served the rebellion in various capacities, into Congress. He cannot, by an equivocal use of the word "loyal," deceive anybody as to the results to which his suggestions, if followed, would lead.

Many of the recommendations contained in other parts of his message are good, and will, of course, receive that consideration from Congress which they may be found to deserve. That part of the message which relates to France and the Mexican question will meet with general approbation. Late dispatches from Europe state that the withdrawal of the French troops from Mexico will soon begin, and will be completed in a few months. This is the final settlement of that question. We gather from the message that our claims against England for indemnity for the depredations committed by the rebel pirates, have been but feebly prosecuted. This matter will never be settled unless our Government puts on a bold front in pressing its demands.

The concluding portion of the message is exceedingly gracious. The President appeals to Congress in this way: "Let us endeavor to preserve harmony between the co ordinate departments of the Government so that each, in its proper sphere, may cordially co-operate with the other." His Excellency is evidently anxious for Congress to forget his past conduct. To read this appeal one would think that his nature was full of milk of human kindness, and that it had never been curdled in the least degree. Perhaps these soft words are to be taken as an earnest that he will make no more speeches in denunciation of Congress. Perhaps he means to promise that he will drink fewer bottles of wine on the 22d of February next than he did on that day of last year, and that he will refuse to be called out again by a crowd of rebels and betrayed by his passions into making a vituperative speech against a "co ordinate department of the Government." He begs a truce with Congress in the quarrel which he began. What will his Copperhead admirers who have been talking of his putting down the Radicals by "bayonets," say now?

SAN FRANCISCO, Dec 6 —The following Eastern news appeared in this morning's *Times*

NEW YORK, Dec. 4 —The *Herald* says a private cable dispatch from Paris, was received in this city yesterday which says, in effect, that no direct reply has been transmitted by the French Government to that of the United States on the subject of the immediate withdrawal of troops from Mexico, or by installment, as was proposed by Drouyn de l'Huys. Seward in his dispatch remonstrates against neglect, and asks for the prompt fulfillment of the promise which was received by the United States in good faith and expectation that it would be fulfilled His remonstrance, however, was free from threat, though decided and final in its tone That any difficulty will grow out of it is not believed here where the lengthy [illegible] to Bigelow, so far as its general character is concerned, is fully known

LONDON, Dec 3 —An immense reform demonstration is in progress in this city It is estimated that there were at least 50,000 persons in the procession, which formed an imposing feature of the demonstration Nearly all trades and societies were out in full force and marched to the place of meeting Forty-seven of these organized bodies, together with various branches of reform leagues were in line which was composed of companies and divisions, under the guidance of marshals led by bands of music, and bearing banners of the society, insignia, etc. It was by far the largest and most important affair of the kind which has ever taken place in the country, notwithstanding the very unpleasant state of the weather It is a fact worthy of notice that the stars and stripes waved above the procession in many places and was frequently loudly cheered. Bands, too, seemed to have caught the inspiration, and indulged in American airs of a patriotic character

A meeting took place in the grounds of the Beaufort House, the most convenient location for so large a meeting Seven stands were erected for speakers, a large number of whom were present. Stores in Pall Mall, Pickadilly and other thorofares throughout which the procession passed were closed, and the people thronged the streets continually from St James Park, where the procession was formed to Beaufort House. The greatest order was maintained throughout the demonstration, and great enthusiasm prevailed The moral effect of the whole affair cannot be overestimated

The Associated Press Quarrel

NEW YORK Dec 3.—The Associated Press quarrel excites little interest here The policy of the association has not changed The *World* announced this morning that it would take Craig's news and it was dismissed immediately from the association The *Herald Times* and *Tribune*, it is understood, held a conference to-day and agreed to print special dispatches and send them over the country They also agreed to advance $103 000 during the next three months to aid in developing the facilities of the association in this connection. It was felt that the contest is not with the press of the country but to prevent the creation of a one-man tyranny over news like that exercised in Europe The most liberal arrangements are being made with all papers that remain true to the association Delegations from the West are here protesting against the election of Halstead and White The action of the *Herald Tribune* and *Times* of course ends the contest It is now said that Craig will continue to send commercial dispatches and ship news and abandon the collection of general intelligence

WASHINGTON Dec 5 —The amount of gold thus far disposed of by order of the Secretary of the Treasury is between four and five millions Boutwell's bill recommending the sale of two millions a week hangs in the Ways and Means Committee, the members of which have already expressed opposition not to McCulloch's purpose to sell gold freely, but to sales of small amounts The sales are probably over for the present. The monthly public debt statement yet unpublished shows very little variation from October. COMMON COUNCIL PROCEEDINGS—THURSDAY Dec 6th —The Council met and was called to order by his Honor Mayor Holmes.

Present—Aldermen Carter Carson Fechheimer Hallock, Lownsdale, McCraken O Connor Rosenheim and Zelber

The record of the last meeting was read and approved

PETITIONS, MEMORIALS, REMONSTRANCES, &.

A communication was received from Thos O Young in relation to water thrown upon the walls of Engine House No 3 from the roof of adjoining house and asking to have the evil remedied. Referred to the Committee on Fire and Water

A communication was received from Henry Cason stating the completion of cisterns according to contract stating that two had been filled and held that the other had not yet been filled and asking to be paid the contract price less $100 to be kept back till the latter cistern be tested On motion of Mr Rosenheim a warrant for $400 was ordered drawn in Mr Cason s favor

A communication was received from J S White foreman of Willamette Engine Co N 1, representing that the bell rope is worn out, that the company need repairs to the floor and roof of their house. Referred to Committee on Fire and Water

The report of E. E. Walker, superintendent of the dredger, for the week ending Saturday Dec 1st detailing the progress of the work Ordered to be placed on file.

REPORTS OF COMMITTEES.

The Committee on Streets and Public Property, to whom had been referred the petition of C M Carter and others for the improvement of Alder street between Front and Second, reported in favor of publishing notice for such improvement by filling with stone in manner like that of Madison street The report was adopted

The Select Committee on Willamette River Improvements reported in favor of continuing the work by the dredger and snag puller, until stopped by high water; that the work of the last week had progressed to the satisfaction of the Committee; that so long as the dredger worked as well as during the period mentioned the Committee thought it would be good policy to continue; that about one half of Swan Island bar had been cleaned out, that when completed the improvement would be permanent, that if not done now work with a possible exception of one month in the Spring, could not be resumed until midsummer, and that the experience of the present year is an inducement to continue them in the work

Mr McCraken, in view of the fact that the dredger is to be laid up on account of high water, explained that the report was drawn up for presentation at the last meeting The report was ordered to be placed on file.

The Committee on Streets and Public Property report calling the attention of the Council to the custom of hanging signs across the side-walk so low as to be an inconvenience to footmen, and to instruct the Judiciary Committee to prepare an ordinance providing, that signs shall be at least nine or ten feet high, across side walks and to regulate the setting of awning-posts. The report was adopted.

The Recorder's report for the month of November was received and placed on file. It reports the amount collected and paid over to Treasurer, $161, Recorder's fees, $10 70, Marshal s fees $139 10

A report was received from the City Surveyor stating that he had completed the surveys ordered in Couch s Addition, and prepared profiles of the grades of streets. The profiles accompanied the report Referred to the Committee on Streets and Public Property

Men employed on the dredger for month of November, $—

READING OF ORDINANCES.

An ordinance appropriating $114 for payment of W B Clarke; read first and second times.

An ordinance appropriating $32 for fitting up and furnishing the new Council Chamber; read third time and passed. Yeas—8, nays—none Mr. McCraken absent.

An ordinance amendatory of the ordinance defining the duties and fixing the salary of the Street Commissioner [to expedite the removal of obstructions in streets and on side-walks]. Referred to Judiciary Committee.

An ordinance to repeal ordinance No. 33 and to regulate public places of amusement in the city of Portland; read a third time and passed by the following vote:

Yeas—Messrs Carter Fechheimer, Hallock, O Connor, Rosenheim and Zelber—6.

Nays—Messrs. Carson and Lownsdale—2. Absent, Mr McCraken.

An ordinance to amend an ordinance to prevent and remove obstructions of streets and side-walks, referred to Judiciary Committee and City Attorney

PRESENT — — 250,

Mr Hallock offered a resolution that the room adjoining the Auditor's office be fitted up for the use of committees, and to instruct the Auditor to submit estimates of the cost of the same; adopted

On motion of Mr Zelber, the Auditor was instructed to publish notice that the city tax-roll is ready for inspection, and will so remain till the 1st day of January, 1867

The Council adjourned.

TILLAMOOK PRODUCTS —Mr Foley showed us yesterday some specimens of the Tillamook coal recently discovered. It is of the bituminous variety Mr Foley represents the discovery as situated within a very short distance of the ship channel in Tillamook bay, where it can be got out and put on board without hauling, at a comparatively trifling expense The vein from which the specimens were taken shows indications of being a large one The coal of Nehalem is not superior in quality, while it is much less easily got on ship board The Nehalem bay is a much smaller one and much more difficult of entrance, and the mine is situated some twenty five or more miles up the river. Notwithstanding these obstacles the Nehalem coal is becoming an article of commerce, then, why should not the Tillamook coal mine become an important source of revenue to that little colony? Besides the coal mine, Mr Foley says, Tillamook has tin, copper and silver ore, beyond a question He also showed a few potatoes, raised there, which are a little ahead of anything we ever saw in this State. Capt Hedges of Clackamas county, formerly Indian Agent, used to tell a story of a Tillamook cabbage, which was so large that it could not be taken whole through an ordinary door Mr Foley says the story is no exaggeration, he has seen them this year, quite as large.

REMAINS OF EXTINCT ANIMALS —Mr Alvord Marshal of Idaho Territory, called on us yesterday and showed us a tooth which had once belonged to a monster of vast proportions The specimen is one of three found in the same place, one of which weighs over nine pounds The one shown us weighs eight and a half pounds, is about eight inches long without the roots, which have decayed and are missing three inches in thick and not less than seven inches in width It was found in a river, about four miles above the mouth of Boise creek, Idaho, at a depth of sixty feet from the surface and ten feet from the bed rock Bones were also found which evidently belonged to the same animal, one of which, supposed to be a thigh bone, was at least a foot in diameter These latter, when exposed to the air crumbled but the tooth are petrified and in a good state of preservation. The tooth shown us indicates that the animal belongs to one of the herbiferous tribes If he were as large as we may readily suppose from this tooth, it would require a small forest to make him a moderate meal. He probably belonged to the same age as the big trees in California, if so it is easily understood why the trees grew so large—they were obliged to do it in self defense

MAILS BY STEAMER —Hereafter the mails between San Francisco and Portland will be carried by steamer an arrangement to that effect having been concluded on the 1st inst. Having received no particulars of the arrangement, we can only surmise that letters will be thus sent from San Francisco An effort to have all the Eastern paper mail for Postoffices in Oregon North of the Calapooia mountains, carried by steamer, was some time since made, and it is probable that the carriage of all such matter is included in the late arrangement During the winter months at least, mails from San Francisco by steamer will anticipate the overland mail and will prove a great convenience to business men in both cities.

LAW LECTURE Quite an audience of those interested assembled last evening at the Circuit Court Room to hear the lecture of Hon. M P Deady before the Portland Law Association The lecture was instructive, learned and highly interesting The following resolution was unanimously adopted by the Association with a request that it be published in the daily papers of the city Resolved, That this Association tender its sincere thanks to Hon. M P Deady for his interesting and instructive lecture delivered before us this evening

PERSONAL —We were gratified yesterday, to receive a call from Gen Jas F Rusling of the army who is passing through this Department for the purpose of inspecting Quartermasters affairs He has recently arrived from the Plains, having visited the various posts on the route, and will proceed on the Oriflamme to San Francisco He expects to visit hereafter, the posts on Puget Sound. The General spent considerable time last year at the South.

SAVING EXPENSE.—While the dredger and snag puller are temporarily laid up, the tug Celilo is discharged from the government for the purpose of avoiding unnecessary expense to the city Mr Walker says the snag puller on Tuesday, the last day on which any work was done took up the largest snag yet raised from the Swan Island bar with very little trouble

FROM OREGON CITY —The following is the Alert s freight list, for Thursday 1312 sacks flour 446 boxes apples, 7 keg apple-sauce 1 case goods 50 half barrels 12 boxes goods, 7 sacks dried fruit 10 bales goods 5 packages skins, 230 sacks feed 33 half barrels apples 441 sacks wheat, 9 sacks bacon and 4 boxes eggs

ELECTION OF OFFICERS —The following officers of the Young Men's Law Association of Portland were elected Thursday evening, to serve during the ensuing month: President, J B Upton; Vice President, James Guthrie Secretary, R E Bybee; Treasurer J C Moreland.

THE MONTANA.—This steamer which left San Francisco on Tuesday, will probably arrive to-day She is advertised in the appropriate column to leave here for San Francisco on or about Tuesday the 11th.

FROM THE UPPER COLUMBIA.—The steamer Hunt came down last evening with a big crowd of passengers—a large number of them returning miners.

TREASURE.—Wells Fargo & Co received by the Hunt, yesterday, $50,000 in treasure from the upper country.

HAYS & RAY AND POORMAN

What is known as the middle tunnel of the Hays and Ray has been made to connect with the Poorman discovery. This tunnel was not quite completed at the time of the compromise, and the work then stopped The tunnel follows the exact line of the Hays & Ray vein, and is over 150 feet in length, and taps the Poorman discovery 150 feet below the surface—thus draining the latter claim. Mr Peck informs us that this tunnel shows a ledge of from two to three feet well defined and containing deposits of ore in character and rich ness the same as the Poorman, and shows the Hays & Ray and Poorman to be one and the same throughout, and that the skeptical will be permit ted to examine the situation for themselves if they wish It would seem very probable that a tunnel of that size and length would be sufficient to test the matter for all practical purposes The Hays & Ray was located and the assessments worked some six weeks before anybody discover ed or lay claim to what is known as the Poorman The identity of the two claims being demonstra ted by the pick, shovel and drill, and the situation can be easily comprehended A visit to the works as now advanced should leave a satisfactory im pression one way or the other, at least. That for the present

THE VULCAN.

We are informed by good disinterested authori ty that the Vulcan ledge, believed to be an ex tension—north—of the Silver Cord, is practically developed into one of the best mining interests in Owyhee. The owners are taking out huge quan tities of ore of even and satisfactory richness. It is being worked at the Morning Star Mill by D H. Jackson and W L Burnham—as mentioned two weeks ago. D H Jackson has stuck by the camp faithfully and with varied luck—being the recipient of the criticism generally administered to quartz men in such circumstances, but he has worried it through admirably, and will probably be amply rewarded yet, as we understand he owns extensively in the Vulcan There are hundreds of apparently worthless locations that will yet speak for War Eagle as have the Silver Cord and Vulcan.

The following is from the Idaho *Statesman* of the 29th.

FROM ONEIDA.

We had the pleasure, yesterday, of meeting Mr M. A. Carter, member of the Council elect, and Mr Geo. Ward, Sheriff of Oneida county Both of these gentlemen have the appearance of being substantial, sensible men, who will be likely to honor the position to which they have been chosen Mr. Carter is the first member elected to the Council from Oneida county, and Mr Ward the first elected Sheriff. Messrs. Oble and Peck, members of the House, are expected to arrive in the course of a week. Oneida county deserves some attention from the Legislature about to con vene, and we feel sure, judging from the reputa tion of the gentlemen chosen for that purpose, that it will be ably represented. Oneida county has a larger area of cultivable land than any oth er two counties in the Territory, and by proper management may soon become the most wealthy and populous One of the most important items concerning it at present is the settlement of the boundary line, particularly that next to Utah Territory.

THE SILVER CORD

dump pile contains nearly seven hundred tons of the richest quality of ore, and the "indications" improving, if any change. The works embrace about seven hundred feet of tunneling and shaft ing. The music of the steam whistles may be in creased considerably before spring, unless winter crowds in too thick and fast—a fact not prognos ticated in our almanac to an alarming extent.

The shaft of the Knickerbocker Company, on the south extension of the Morning Star ledge, is being sunk to a depth of 150 feet, by parties hav ing a contract. That will probably demonstrate to the company the propriety of further operations on that claim.

MORE INDIANS.

A farmer living near the mouth of the Boise came in town yesterday, and reports that the In dians last Monday night took two horses from Dr Froman, two from John McLaughlin and two or three from other parties, all from this side of Snake river, near the mouth of the Boise.

A letter from Lewiston to the *Statesman* con tains the annexed paragraph.

There will be considerable mining all winter on Snake river, Salmon river, and on the Palouse. These mines are always open for winter work. Though they don't yield as profitably as some of the placer mines in the mountain districts, they pay fair wages and afford employment for those who are disposed to work the year round. Good ten dollar diggings have been struck twenty-five miles from here in the direction of the Palouse on some tributaries of that stream near the camas ground. Twenty claims have been taken up and as many miners expect to winter there. Two men came in this week, bought grub and went back. They think the ground is much more extensive than yet prospected. In cluding Chinamen, there will be from three to five hundred men engaged in mining all winter Salmon river lies lower than any other stream, and has more extensive bars, and so far as they have been prospected, induce many persons to be lieve they are the most extensive gold fields in the Territory. The bars are from ten to seventy-five feet above low water mark, and as yet no water has been taken from the river on any of these bars. The only water used is by wheeling the dirt to the edge of the river and rocking it out, or cutting small ditches from the creeks that put into the river. The earth above the gravel is deep, but it is of a light sandy nature and can be washed off with great rapidity by a single sluice-head of water, and the dump falling into the river is en tirely carried away. This ground extends for over two hundred miles on Salmon river, and it is quite possible that these mines will yet employ more laborers than all the other mines of Idaho Terri tory.

An Affecting Interview at the White House.

A Washington correspondent of a Pennsylvania paper gives the following racy account of the first interview between President Johnson and Senator Cowan after the October elections.

A day or two after the great battle, Mr Cowan made his appearance at the Executive mansion After having been kept waiting half an hour, he was ushered into the "presence." Mr Johnson was absorbed in a private letter, and did not raise his eyes for at least three minutes, during which time the Senator was kept standing, hat in hand, unnoticed. Finally the President looked up and said·

"Well! you're here, are you?"

"Yes, sir," replied the Senator.

"When did you leave home?"

"Yesterday."

"Did you stop at Harrisburg?"

"I did."

"Who did you see there?"

"Not a soul. The ungrateful hounds have deserted me."

"Everything appears to have gone wrong," said the President.

"Yes," replied the Senator, grimly.

"How could you have been so mistaken in the result? I have been deceived on all hands, and most grievously have you misled me. A pretty mess we have made of it!"

"You must blame the Postmaster General If he had followed my injunctions we should have done much better, and perhaps have carried the State."

"Oh, d——n your 'if's!' You have had no 'if's' about Pennsylvania for the last month or six weeks"

"I did my best," replied the Senator

"And that amounts to just nothing," testily answered the President. "You told me that aided by Johnson, Hall, Flanigan, Sloanmaker, Zulick, Welsh, Helme, and others, we should nearly, if not quite, carry Philadelphia, beating Myers, Kelley, and Taylor, certain, and perhaps make a clean sweep of the State"

"I did, but to my mortification I have discover ed that the men you have named are without in fluence and unreliable"

"You should have made this discovery at an earlier day As it is, I am the laugh and jeer of the country"

"I repeat, I did my best," replied the Senator

"Your best! Why, you havn't carried your own district"

"All owing to the Postmaster General, and to the most villainous frauds"

"Pooh, pooh, that is the cry of all beaten men The truth is we have made a great blunder, thanks to you, to Montgomery Blair, Randall Doolittle, Seward and Weed, and I am not certain that the Radicals won't undertake to impeach me, and perhaps turn me out of office before three months roll round"

"I am a great constitutional lawyer, and I don't think you need be apprehensive They will hardly resort—"

"Stuff and nonsense! these Radicals will resort to anything They have the power, and 'might makes right' Besides, I think they have me on the hip"

"Oh, you need not fear I'll stand by you"

"Yes, but your days are numbered—your in fluence gone I suppose that d——d Forney, or that malignant old Stevens, will take your place The truth is, I have been outrageously deceived by all our surroundings. If I had taken the advice which Col Fitzgerald gave me last June I should not have been in this infernal trouble now"

"What did he say?" inquired the Senator

"Why he told me the naked truth like an honest man He said Pennsylvania would give 2 000 for Geary and that Forney would smash me and my Democratic Conservative Bread and Butter friends, just as he smashed old Buchan an"

"He was nearly right it seems"

"Indeed he was Everything he said about Philadelphia and Pennsylvania has been verified by results Six months ago this house was the resort of the best men in the country Now it is run by the rabble, consisting mainly of greedy politicians whose chief consumption is whisky, onions and tobacco Faugh

He has secured the services of Charley (known to be the best cook in Salem and one of the best in the whole country) and other competent persons to manage the culinary department and is resolved to set as good a table as can be found anywhere—not to clap trap pop p and show flummery and fine furniture but in an abund ant supply of the very best the market affords

His Bar room will be kept warmed and lighted and well supplied with newspapers periodicals and other suitable reading matter and kept in a manner which will make it an agreeable resort

In short, he intends making an effort to [illegible] all who stop at the BENNETT HOUSE And he must respectfully requests his friends everywhere to give the old and well known stand at least one more trial before concluding they can do as well elsewhere and promises if they are not well treated and properly cared for *and at reason able figures*, it will not be the fault of the public s most obedient and most humble servant
